Subject: AOGCC Cook Inlet injection data

Hanh,
Thank you for opportunity to participate in the conference call this morning.

As discussed, please find data on the injection volumes provided to AOGCC on the Cook Inlet wells. Note the wells are classified as Class I disposal, Class II disposal, and Class II enhanced oil recovery (EOR). We have grouped the wells by platform then pool, but have provided the raw data as well.

If you have additional questions or think of additional data that we may have that can assist you, please let me know.

Thanks and Regards,
Chris Wallace
